

PROFILE SUMMARY

I'm a creative UI/UX, Graphics designer and a passionate software developer skilled in .NET, React, TypeScript. I specialize in crafting user-centered designs using Figma also can building scalable, maintainable applications using clean architecture, CQRS, and Mediator.

EXPERIENCE

DigiPrabhat | UI/UX & Graphics Designer - [2022/05 – 2024/02]

Startup Digital Marketing Company – Hetauda

- Designed the **UI/UX for DigiPrabhat's**, focusing on clean layouts, intuitive navigation, and responsive design using **Figma** and **other needed editing tools(canva,picsart)**.
- Created **brand-consistent graphics** including logos, social media posts, promotional banners, and marketing materials tailored for digital campaigns.

Kutumba | UI/UX Designer Intern (3 Months) - [2024/03 – 2024/06]

IT Company – Hetauda

Tech Stack: Figma, Canva, Photoshop

- Designed the user interface for both a mobile app and website for a food delivery system, enhancing the user experience across platforms.
- Conducted user research and gathered feedback to improve design prototypes and optimize usability.
- Created wireframes, user flows, and high-fidelity mockups to ensure smooth navigation and intuitive design.
- Collaborated with developers to ensure design feasibility and proper implementation.
- Focused on responsive design to ensure seamless functionality across various devices and screen sizes.

Hetauda School of Management | UI/UX Design Teacher - 2024

Tech Stack: Figma

- Taught UI/UX design principles, tools, and methodologies to students, focusing on practical application and hands-on learning.
- Led a DesignThon, where students worked in teams to implement UI/UX design concepts for real-world projects, enhancing their skills in user-centered design.
- Guided students through the design process, from research and wireframing to prototyping and testing.

TECHNICAL SKILLS

- Designing Skill : UI/UX Design: Figma, Canva & other editing tools
 - Wireframing, Prototyping, and User Flows
 - Responsive Web Design & Mobile App Design
- Backend: .NET(C#), Django, Node.js, Java.
- Frontend: Typescript, React, HTML-CSS-JS.
- Architectural Patterns: Clean Architecture, CQRS, MediatR, MVC(Model-View-Controller).
- Databases: MySQL, Postgres, Stored Procedure.
- Soft Skills: Communication, Time Management, Team Collaboration.

PROJECTS ON (UI/UX)

1. SN Enterprises – Industrial Manufacturing Website (UI/UX Design) :

- Designed a professional and responsive website UI/UX for a manufacturer and exporter of pipe bending dies.
- Designed dedicated sections for About Us, client gallery, and contact form to enhance credibility and user engagement.
- Created interactive prototypes to visualize user flows and improve the overall user experience.

2. KutumbaBhoj – Food Delivery Website (UI/UX Design)

- Designed the complete UI/UX for both web and mobile platforms of a food delivery service.
- Designed the complete UI/UX for a food delivery platform, covering food showcase, menu browsing, cart, and checkout flows.
- Focused on a clean, user-friendly interface with vibrant visuals to enhance the ordering experience.

3. Instagram Clone – Social Media App (UI/UX Design)

- Implemented CQRS, MediatR, Clean Architecture, Repository Pattern , Stored procedure,T Sql.
- Integrated JWT authentication and role-based access control.
- Used Razor Pages for dynamic UI and SQL for database management.

4. Digital Wallet – Finance App (UI/UX Design)

- Designed a modern and secure UI/UX for a digital wallet application with a focus on user-friendly financial management.
- Integrated data visualization features including analytics dashboards and interactive charts for spending insights.

EDUCATION

TU, Hetauda School Of Management

Bachelor's In Computer Application | **Current Semester:** 6th Semester

CERTIFICATIONS & COURSEWORK

- **Winner of Graphics Design Competition** – Hetauda School of Management (2023)
- **Winner of Video Editing Competition** – Hetauda School of Management(2024)
- **Python and IoT Program** – EnCypher Technologies (2022)
